Safe Environment Engineering Systems Receives DHS SAFETY Act Designation Renewal

Safe Environment Engineering is pleased to announce the receipt of the SAFETY Act Designation Renewal by the U.S. Department of Homeland Security (DHS) and that the Lifeline Wireless Monitoring System, ICBRNE Training Environment and the Automated Capabilities and Equipment (ACE) System is now Designated as a Qualified Anti-Terrorism Technology.

“Dear Applicant,

Congratulations from the Department of Homeland Security on receiving SAFETY Act protections for your Qualified Anti-Terrorism Technology (QATT). We at the Office of SAFETY Act Implementation thank you for your efforts in the fight against terrorism and hope you have successfully deployed your QATT and that it is helping to make America safe...

Sincerely,

Office of SAFETY Act Implementation
Department of Homeland Security”

What is the SAFETY Act?

The SAFETY Act provides important legal liability protections for providers of Qualified Anti-Terrorism Technologies - whether they are products or services. The goal of the SAFETY Act is to encourage the development and deployment of effective anti-terrorism products and services by providing liability protections.

For more details, see the [SAFETY Act Final Rule: Confidentiality of Information](#).

The SAFETY Act Benefits to Your Company

Encouraging the **DEVELOPMENT** and **DEPLOYMENT** of ANTI-TERRORISM TECHNOLOGIES

RECENTLY APPROVED TECHNOLOGIES

Safe Environment Engineering, L.P.

March 02, 2017 - Safe Environment Engineering, L.P. provides the Lifeline Wireless Monitoring System (the "Technology"). The Technology is a system that provides real-time chemical, biological, radiological, and nuclear sensor reading to Federal, State, and local area decision makers worldwide with an Internet connection. This Designation will expire on February 28, 2022.
