

## **Safe Environment Engineering**

For Immediate Release  
March 22, 2007

### ***Safe Environment Engineering Product Information Available Through the Responder Knowledge Base***

Safe Environment Engineering's wireless meter telemetry equipment and confined space system information is now available through the Responder Knowledge Base (RKB).

RKB Mission:

*"Created to provide Emergency Responders, purchasers, and planners with a trusted, integrated, on-line source of information on products, standards, certifications, grants, and other equipment-related information."*

The RKB provides basic information describing our life-safety equipment and specifies part numbers and pricing.

[www.rkb.mipt.org](http://www.rkb.mipt.org)

Safe Environment Engineering provides many other services to complement products offered on the RKB. These services include, but are not limited to:

- System Integration
- Training
- Service, Support and Maintenance
- Custom Product Development
- Additional Upon Request
